## Verification Report Changes

---

This statement has been added to several verification reports to denote the following:

*Real-Time Data Captured on this report;  
Not designed to match Reimbursement Reports*

<b>Verification Reports</b>	
<b>Name</b>	<b>Description</b>
<a href="#">ZGA542</a>	Units of Service Verification Report
<a href="#">ZGA542-1</a>	Service Totals Summary by State
<a href="#">ZGA542-2</a>	Service Totals Summary by Region
<a href="#">ZGA542-3</a>	Service Totals Summary by County
<a href="#">ZGA542-4</a>	Service Totals Summary by Provider
<a href="#">ZGA543</a>	Consumer Contributions/Program Income Verification Report
<a href="#">ZGA544</a>	Non-Unit Service Verification Report
<a href="#">ZGA548</a>	Legal Client And Unit Verification Report

Some reports will also have a date and time stamp on them.

<b>CONFIDENTIAL</b> <small>Real-Time Data Captured on this report; Not designed to match Reimbursement</small>	<b>North Carolina</b> <b>Division of Aging and Adult Services</b>	Print Date: 8/31/2009 2:16:58PM
	<b>ZGA542 - Unit of Services Verification Report</b> July 1, 2008 through June 30, 2009 FY 2009	
<b>Region A</b>	<b>Provider A011</b>	<b>Site / Route 100</b>

### Non-Unit Reimbursement Services

When keying non-unit reimbursement, users should key the amounts in the report month. The current month and report month are not the same. For example, to request non-unit reimbursement for the month of August, the amounts must be keyed in August even though you key the amounts in the month of September. When August reimbursement data is generated in September, ARMS will pick up changes in July and the report month August. Non-unit reimbursement keyed in the month of September will not be captured in August reimbursement generation. *Reimbursement will capture previous report months, but not future report month.*

The ZGA-544 Non-Unit Reimbursement Verification Report shows Real-Time Data Captured and is not designed to match Reimbursement Reports.
