NC SCHOOL BASED CHILD AND FAMILY SUPPORT INITIATIVE

The School Based Child and Family Support Initiative's purpose is to identify and coordinate appropriate community services and supports for children at risk of school failure or out-of-home placement in order to address the physical, social, legal, emotional, and developmental factors that affect academic performance. The Department of Health and Human Services, the Department of Public Instruction, the State Board of Education, the Department of Juvenile Justice and Delinquency Prevention, the Administrative Office of the Courts, and other State agencies that provide services for children shall share responsibility and accountability to improve outcomes for these children and their families. The Initiative shall be based on the following principles:

- a. The development of a strong infrastructure of interagency collaboration;
- b. One child, one team, one plan;
- c. Individualized strengths-based care;
- d. Accountability;
- e. Cultural competence;
- f. Children at risk of school failure or out-of-home placement may enter the system through any participating agency;
- g. Services shall be specified, delivered, and monitored through a unified Child and Family Plan that is outcome-oriented and evaluation-based;
- h. Services shall be the most efficient in terms of cost and effectiveness and shall be delivered in the most natural settings possible;
- i. Out-of-home placements for children shall be a last resort and shall include concrete plans to bring the children back to a stable, permanent home, their schools, and their community; and
- j. Families and consumers shall be involved in decision making throughout service planning, delivery, and monitoring.
