**\* Item must be specifically requested and will not be covered if just requested as “drugs listed on the sickle cell formulary”.**

**\*\* Erythropoietin and other similar drugs must be specifically requested and requires submission of a special form completed by the treating hematologist to indicate reason(s) for use.**

**In addition, ANY brand names of drugs listed on this formulary must be specifically requested and a reason for the brand name use must be documented on the request. Requests for brand names without this additional information will be pended awaiting the submission of additional information. Brand name drugs will not be automatically approved for a request that only states, “drugs as listed on the sickle cell formulary.”**
