RE: Fisher Rex Sandwich Company Recall
DATE: October 12, 2009

Our agency recently received the following communication from the North Carolina Department of Environment and Natural Resources (DENR):

Fisher-Rex Sandwich Co. is voluntarily recalling some of its pre-packaged sandwiches after tests by the N.C. Department of Agriculture and Consumer Services confirmed the presence of *Listeria monocytogenes* in product samples. The recalled products were distributed to **convenience stores, gas stations and other retail stores** in North Carolina, South Carolina and Virginia.

Please ensure that these products are removed from your licensed facilities immediately.

The lot codes subject to recall are SEVEN (7) digit lot codes. All lot codes begin with 01juliandate09. For example: 0125509

Products without a lot number are subject to recall.

Products with a five (5) digit lot code are **not** subject to recall.

Products may have two different numbers: a lot code and a best sell by date on the price sticker. The lot code should be used to determine if the product is subject to recall.

More information can be obtained at: <http://www.ncagr.gov/paffairs/release/2009/10-09sandwichrecall.htm>.
