

Site definition:

A Place of Business where a service occurs, consumer records are kept and/or supervision of staff occurs.

The corporate office must be registered with the Secretary of State and with the local municipality when applicable.

The site can't be a private home unless the agency is only providing residential services. For example: a Level III group home could not have an office for periodic services at the same address.

The site can't provide other services that are not covered under DHHS. For example: a hair salon can't be at the same address as the MH/DD/SAS agency.
