**AlertMaster AM6000 Notification System by Clarity
for Two Rooms (for Deaf and Hard of Hearing)**

Multi-Room Alerting System for Phone, Door and Alarm Clock. The AlertMaster® AM6000 Combo System, by Clarity®, notifies you when the telephone rings, someone is at the door, and when the built-in alarm clock goes off. Place the AMRX2 Remote Receiver (included) in a second room (kitchen, garage, etc.) to be notified by flashing lamp in another part of the house.

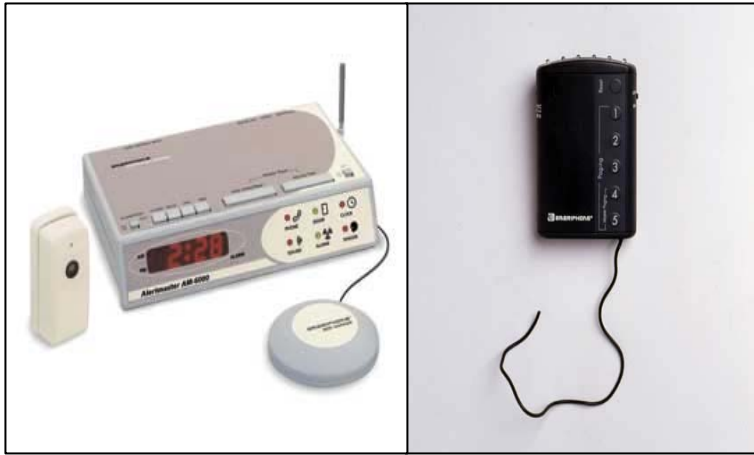

Vendor Awarded:

Designed for persons with moderate to profound hearing loss, with optional accessories to alert you to a crying baby or intruder

Lighted LEDs indicate: ringing phone, clock, doorbell, loud sound, motion or audio alarm (optional accessories may be required)

Flashing pattern based on type of alert, No wiring needed, simply plugs in

RX-2 Remote connects for flashing lamp notification anywhere within 80 feet of base

S18

AlertMaster AM6000 Notification and AMPX Personal Vibrating Receiver (for Deaf Blind)

The AlertMaster® AMPXBTM, by Clarity®, is a wireless, portable vibrating personal receiver with braille that provides alerts up to 80 feet away from the AM6000TM Notification System. The AMPXB is an ideal solution for the blind and those with a moderate-to-severe hearing loss.

Vendor Awarded:

1) AM6000 Alertmaster

Designed for people with moderate to profound hearing loss.

Notifies household of up to six events (including telephone or doorbell ringing, baby cry, audio alarms, etc via flashing lamp, and/or bed shaker. Flashing patterns based on type of alert.

(Optional accessories may be needed—eg: baby cry, intruder)

No wiring required, just plug in

2) AMPXB AlertMaster® Personal Tactile Signaler

Works in conjunction with the AM6000. Can be worn or carried

Tactile pad for notification anywhere in or around home, even outdoors.
