T04

Compact/C TTY

The Compact/C TTY is excellent for travel. It actually folds in half and snaps shut in its own self-contained, hard plastic case! Now the Compact/C is even more convenient because it is compatible with select digital cellular phones (phone not included). (The availability of TTY-compatible digital cell phones and TTY-compatible digital wireless networks are still limited but are expected to increase throughout the year.

Vendor Awarded: Harris Communications Inc.

Weights only one pound, 7-1/4" x 8-1/2" when opened

Large 32K memory to save conversations, memos, and telephone numbers

Digital cell phone compatible TTY-cell phone cable, Rechargeable batteries (good for 7 to 10 hours), Built-in time and date, Full-sized gray-colored keyboard, Auto ID

Turbo Code defaults to "off", Baudot interrupt capabilities removed, 2 line, 80 character display
TTY Announcer announces to person at other end of line that they need to use TTY.

Enhanced Acoustic Reception System (E.A.R.S.) helps pick up even weak TTY signals

T02

- Works with TTY compatible digital cell phones and most cordless phone (need 2.5mm jack)
- Bright visual ringer
- 68 key board includes one-touch for common phrases
- Built in microphone enables VCO calls
- Hearing Carry Over (HCO) calls with optional speakers or headset
- Built-in text answering machine

T03

Ubi4Tel feature (using UbiDuo device)

Vendor Awarded: sComm Inc.

Ubi4Tel™ is the ground-breaking UbiDuo telephone feature. Experience the same freedom of two-way, simultaneous communication - this time over the telephone line when calling another UbiDuo user. The UbiDuo's wireless capability enables up to two more people (one on each end) to be added to the telephone conversation. Your two-way conversation can become a three- or four-way conference call! The diagram below shows how Ubi4Tel works
