Overview

The Special Supplemental Nutrition Program for Women, Infants and Children (WIC) provides breastfeeding promotion and support for pregnant and postpartum mothers. These services are an important component of the nutrition education benefits offered by the WIC Program to over 6.57 million people each month during fiscal year (FY) 2023.

The Child Nutrition Act of 1966, as amended by the Healthy, Hunger-Free Kids Act of 2010, requires the U.S. Department of Agriculture (USDA) to annually compile and publish breastfeeding performance measurements. This year's report is a compilation of FY 2023 breastfeeding performance measurements, based on program participation data of the number of partially and fully breastfed infants for each WIC State and local agency. The USDA's Food and Nutrition Service (FNS) uses this data to monitor breastfeeding trends and to identify exemplary performance of WIC State and local agencies.

The WIC Program has achieved many accomplishments in promoting and supporting breastfeeding, including improvement in the overall breastfeeding rate among WIC participants nationwide. Local WIC programs and staff, who provide breastfeeding education and support to mothers, are the key driver of this positive trend.

Definitions

Infants

Persons under one year of age

Breastfeeding

Practice of feeding a mother's breastmilk to her infant(s) on the average of at least once a day

Breastfeeding Women

Women up to one year postpartum who are breastfeeding their infants

Fully Breastfed Infants

Infants of participating breastfeeding women who do not receive infant formula from the WIC Program

Partially Breastfed Infants

Infants who are breastfed at least once a day and receive infant formula from the WIC Program

Fully Formula-fed Infants

Infants who are not fully or partially breastfed and receive infant formula from the WIC Program

Data Sources

The data used in this report was submitted by State agencies in April – June 2024 on behalf of local agencies. Due to timing differences and revised data submissions by State agencies, the data provided in this report may not match the data from State agency annual closeout reports (FNS-798/798A reports). The data contained in this report is as of the publication date. For consistent comparisons, data from State agency-submitted FNS-798 reports were used in this report when comparing FY 2023 data to data from previous years. FY 2023 data from State agency-submitted Breastfeeding Data Local Agency reports were used for all FY 2023 data summaries. In all map figures, Indian Tribal Organizations (ITO) were combined with their respective geographic State for display purposes. For Table 2, all State and local agencies with less than thirty participants were removed to protect participant confidentiality.

Data Summary

The percentage of breastfed infants has increased every year since FY 2014 (Figure 1; Table 1), reflecting the successful efforts of WIC State and local agencies to continue to provide quality breastfeeding services to WIC participants. Most State agencies saw an increase in the percentage of breastfed infants from FY 2014 to 2023 with a national increase of 7.8%, which represents a national growth rate of 26.4% over that time period. The proportion of fully to partially breastfed infants averaged 36.8% to 63.2% between FY 2014 and 2023 (Figure 2).

In FY 2023, an average of 1.47 million infants were served by the WIC Program. Virgin Islands reported the highest breastfeeding percentage rate of all WIC State agencies at 70.7%, followed by American Samoa at 62.0% and Texas at 61.7%.

Pueblo of Zuni reported the highest fully breastfed percentage rate in FY 2023 at 49.4%, followed by Vermont at 34.6% and Pueblo of San Felipe 34.1% (Figure 3; Figure 4). Overall, the FY 2023 data showed a positive trend in the number of breastfed infants, reflecting the efforts of WIC State and local agencies that provide breastfeeding promotion and support and breastfeeding peer counseling services to WIC mothers.

Figures and Tables

Figure 1. National WIC Infant Breastfeeding and Non-Breastfeeding Rates from FY 2014 to 2023.

For consistent comparisons, data were obtained from State agency submitted FNS-798 reports from FY 2014 to 2023.

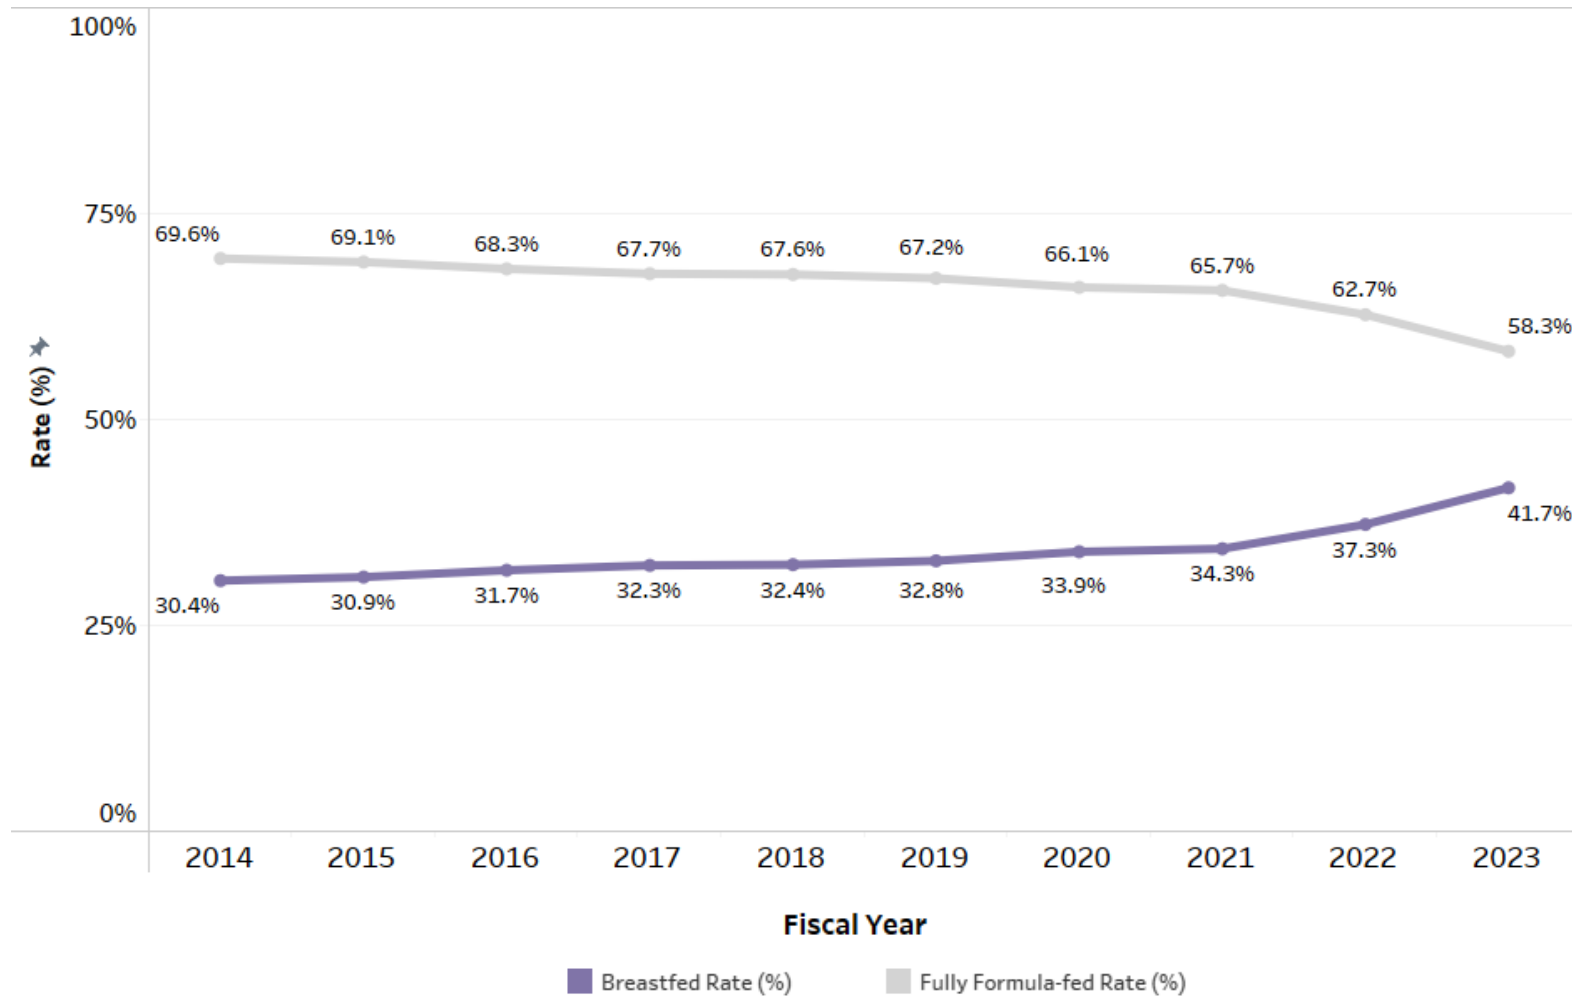

Table 1. National WIC Infant Breastfeeding Rates and Year over Year Changes from FY 2014 to 2023.

For consistent comparisons, data were obtained from State agency submitted FNS-798 reports from FY 2014 to 2023.
