

# SFY 2023 Community Health Grants Quarter Two Report

SFY 2023 Quarter Two (July 1, 2022 - December 31, 2022)

Welcome to the Quarter Two Performance Measure Report for your organization's SFY 2023 Community Health Grant.

If you have any questions regarding the survey, please contact your grant monitor.

- 
- 1) Enter the FIRST and LAST NAME of the employee who compiled the performance data for this report and certifies that the performance measurements are accurate, complete and collected according to the contract terms and conditions.

---

- 
- 2) Enter the email address for the employee who compiled the performance data for this report.

---

- 
- 3) Enter the phone number for the employee who compiled the performance data for this report.

---

4) Grantee Organization: Pick your organization and contract number listed in the drop down box: (Select your Organization's Name from the list. Note the contract number in parentheses.)

- Advocates for Healthy Citizens dba HealthNet Gaston (44230)

# Encounters

---

## Guidance for Encounter Types

### In-Clinic/In-Person Encounters Virtual/Telemedicine Encounters

Visits that occurred in-person at the clinic You can count group visits. You can count care coordination visits. Only count virtual/telemedicine visits provided using interactive, synchronous audio and/or video telecommunication systems that permit real-time communication between a distant provider and a patient. Report virtual/telemedicine visits where: The health center provider virtually provided care to a patient who was elsewhere (i.e., not physically at their health center). The health center authorized patient services by a non-health-center provider or volunteer provider who provided care to a patient who was at the health center through telemedicine, and the health center paid for the services. (Do not report a clinic visit.) A provider who was not physically present at the health center provided care to a patient, if this is consistent with their scope of project. The provider would need access to the health center's HIT/EHR to record their activities and review the patient's record. Interactive, synchronous audio and/or video telecommunication systems permitting real-time communication between the provider and a patient were used. Do not count other modes of telemedicine services (e.g., store and forward, remote patient monitoring, mobile health) or provider-to-provider consultations. The visit is coded and charged as telehealth services, even if third-party payers may not recognize or pay for such services. Generally, these charges would be comparable to a clinic visit charge. Do not count as a virtual visit, situations in which the health center does not pay for virtual services provided by a non-health center provider (referral). Remember that Telemedicine is a growing model of care delivery. State and federal telehealth definitions and regulations regarding the acceptable modes of care delivery, types of providers, informed consent, and location of the patient and/or provider are not applicable in determining virtual visits here.

- 
- 1) How many virtual/telemedicine patient encounters took place during the reporting period, 07/01/2022 - 12/31/2022? Do not use commas when entering numbers.  
  
\_\_\_\_\_

---

  - 2) How many in-clinic patient encounters took place during the reporting period, 07/01/2022 - 12/31/2022? Do not use commas when entering numbers.  
  
\_\_\_\_\_

---

  - 3) TOTAL ENCOUNTERS REPORTED (in-clinic +virtual):  
  

(This is the total of your virtual and in-clinic patient visits.)

---

  - 4) Describe how you pulled data for patient encounters.

# Patients Served

- 
- 1) What is the total number of unduplicated patients served during the reporting period, 07/01/2022 - 12/31/2022? Patients are individuals who have had at least one visit during the reporting period. For example, if a patient is seen five times during the reporting period of 07/01/2022 - 12/31/2022 that patient is counted ONLY ONCE. Do not use commas when entering numbers.

Value reported cannot exceed the total number of clinic visits reported: [visits\_total]

---

- 2) Describe how you pulled data for patients served:

# Maternal Care

## Early Entry into Prenatal Care

Definition: Percentage of prenatal care patients who entered prenatal care during their first trimester.

Denominator: Total number of women (of any age) seen for prenatal care during the reporting period.

Numerator: Number patients who began prenatal care at the health center or with a referral provider, or who began care with another prenatal provider, during their first trimester.

\*For more information refer to UDS 2022 Manual pages 89-90. To access the online UDS manual click [here](#). Note that ORH uses a different reporting period than the UDS.

### Guidance:

Report patients who were prenatal care patients during the reporting period and whose first visit occurred when they were estimated to be pregnant up through the end of the 13th week after the first day of their last menstrual period. Patient self-report of trimester of entry is permitted. Only report patients who had their first comprehensive prenatal exam with the health center or with the referral provider as having begun prenatal care. Health center visits that include pregnancy and other lab tests, dispensing vitamins, taking a health history, and/or obtaining a nutritional or psychosocial assessment only DO NOT count as the start of prenatal care. Report the patient twice as a prenatal care patient in those rare instances when a patient receives prenatal care services for two separate pregnancies in the same calendar year.

- 1) What is the total number number of women (of any age) seen for prenatal care during the reporting period, 7/1/2022 to 12/31/2022? Value reported cannot exceed the total number of unduplicated patients served: [pts\_served]

Do not use commas when entering numbers.

\_\_\_\_\_

- 2) Of the [maternal\_d] patients reported in the question above, how many patients began prenatal care at the health center or with a referral provider, or who began care with another prenatal provider, during their first trimester.

Do not use commas when entering numbers.

\_\_\_\_\_

- 3) This is the percentage you are reporting for the measure "Early Entry into Prenatal Care". % \_\_\_\_\_

- 4) Discuss any challenges or successes in meeting your contract's Early Entry into Prenatal Care performance measure within the reporting period (7/1/2022-12/31/2022) in the comment box below.

# Community Health Workers

---

Does your practice employ a Community Health Worker?

- Yes
- No

---

Does your practice track the number of patient referrals who are initiated for the patient by the Community Health Worker?

- Yes
- No

---

How many unduplicated patients received a referral service from your practice's Community Health Worker as of the end of this reporting period?

\_\_\_\_\_

---

How many CHW's does your practice employ (full-time, part-time, volunteer, or paid positions)?

\_\_\_\_\_

---

Number of CHWs employed

Full-time employment ( $\geq 32$  hours/week) \_\_\_\_\_

Part-time employment ( $< 32$  hours/week) \_\_\_\_\_

Full-time volunteer ( $\geq 32$  hours/week) \_\_\_\_\_

Part-time volunteer ( $< 32$  hours/week) \_\_\_\_\_

Other (describe): \_\_\_\_\_
