COMMENTS:

Estimates/Projections 2020:

There has been an impact on data collection in 2020 due to COVID. Because of this, state demographer computed estimates and projections utilizing a blended base of information that relied on much of the detailed characteristics data from the 2010 census – while maintaining the population totals reported from the 2020 Census. You may see considerable differences between these population projections and those produced previously.

American Community Survey 2016-2020, five-year estimates:

Following pandemic-related data collection disruptions, the Census Bureau revised its methodology to reduce nonresponse bias in data collected in 2020. After evaluating the effectiveness of this methodology, the Census Bureau determined the standard, full suite of 2016–2020 ACS 5-year data are fit for public release, government and business uses.

Due to this adjustment in methodology and 2020 changes to race and ethnicity questions and coding, users should use caution when comparing the 2016-2020 ACS with earlier ACS releases.

Glossary

Disability - A long-lasting physical, mental, or emotional condition that makes it difficult for a person to do activities such as walking, climbing stairs, dressing, bathing, learning, or remembering.

Ambulatory difficulty: Serious difficulty walking or climbing stairs

Cognitive difficulty: Due to physical, mental, or emotional condition, have serious difficulty concentrating, remembering or making decisions.

Hearing difficulty: Serious difficulty hearing or deaf.

Independent difficulty: Due to physical, mental or emotional condition, have difficulty in doing errands alone such as visiting a doctor's office or shopping.

Self-care difficulty: Difficulty dressing or bathing.

Vision difficulty: Blind or have serious difficulty seeing even when wearing glasses.

Group Quarters: Includes population not living in households. Two general categories of people in group quarters are recognized. 1) **Institutionalized population** which includes people under formally authorized, supervised care or custody in institutions at the time of enumeration (such as correctional facilities, nursing homes and juvenile institutions) and 2) **the noninstitutionalized population** which includes all people who live in group quarters other than institutions (such as college dorms, military quarters and group homes).

Household - A household includes all the people who occupy a housing unit as their usual place of residence. Household types are arranged into 2 groups. A **family household** contains at least 2 persons, the householder and at least 1 other person related to the household by birth, marriage or adoption. A **nonfamily household** may contain only one person, the householder or additional persons who are not relatives of the householder.

Householder - The person, or one of the people, in whose name the home is owned, being bought, or rented.

Income - "Total income" is the sum of the amounts reported separately for wages, salary, commissions, bonuses, or tips; self-employment income; interest, dividends, net rental income, royalty income, or income from estates and trusts; Social Security or Railroad Retirement income; Supplemental Security Income (SSI); any public assistance or welfare payments from the state or local welfare office; retirement, survivor, or disability pensions; and any other sources of income received regularly such as Veterans' (VA) payments, unemployment compensation, child support, or alimony.

Labor force -The labor force includes all people classified in the civilian labor force, plus members of the U.S. Armed Forces (people on active duty with the United States Army, Air Force, Navy, Marine Corps, or Coast Guard). The Civilian Labor Force consists of people classified as employed or unemployed.

Median income - The median income divides the income distribution into two equal groups, one having incomes above the median, and other having incomes below the median.

Metropolitan Area - A metro area contains a core urban area of 50,000 or more population. Each metro area consists of one or more counties and includes the counties containing the core urban area, as well as any adjacent counties that have a high degree of social and economic integration (as measured by commuting to work) with the urban core.

Race/Ethnicity: The Census Bureau collects racial data in accordance with guidelines provided by the U.S. Office of Management and Budget. The data is based on self-identification in which residents choose the race or races with which they most closely identify. **Hispanic or Latino** refers to an ethnic category, a person of Cuban, Mexican, Puerto Rican, South or Central American or other Spanish culture or origin regardless of race.

Definitions of other terminology used in the report are available in the glossary of American Community Survey at: <https://www.census.gov/glossary/>
