

1 **10A NCAC 06S .0203 STAFFING PATTERN**

2 (a) The staffing pattern in day health centers and homes shall be dependent upon the enrollment criteria and the
3 particular needs of the participants who are to be served.

4 (b) There shall be a minimum of one full-time equivalent staff position with responsibility for direct participant care
5 for each five participants. In combination programs, there shall be a minimum of one full-time equivalent staff
6 position with responsibility for direct participant care for each six participants.

7 (c) Substitutes shall be used to maintain the staff-participant ratio and to assure supervision of the delivery of the
8 health care services whenever regularly scheduled staff are absent.
