**ANNUAL STATISTICAL REPORT  
FISCAL YEAR 2014-2015  
NORTH CAROLINA ALCOHOL & DRUG ABUSE TREATMENT  
CENTERS**

**INTRODUCTION:**

This is an annual report providing information from selected service indicators on the North Carolina Alcohol & Drug Abuse Treatment Centers (ADATCs). Data included in the report are compiled from client admissions, client movements including discharges, and client diagnostic information. The data are stored in the Division of Mental Health, Developmental Disabilities, and Substance Abuse Services Client Data Warehouse(CDW). This report only includes data on inpatient stays.

Six detail summary tables are presented in this report. Eight additional graphs are provided to highlight data in the summary tables. Table 1 provides population summary data for fiscal year **2015** for each of the three Alcohol & Drug Abuse Treatment Centers. Data on persons served by region and county are presented in Table 2a, Table 2b, and Table 2c. Table 3a provides demographic characteristics of the persons served at the three ADATCs. Table 3b shows the number of persons served by the three ADATCs by employment status and education. Table 3c reflects the number of persons served by the three ADATCs, for two populations of special interest, pregnant women and injection drug users, shown by commitment level, and by diagnosis. Table 4 provides a comparison of major service indicators for the past ten fiscal years. And Table 5 provides Discharge Days and Average Length of Stay for each of the three Alcohol & Drug Abuse Treatment Centers. Table 6a displays the primary drug of choice for each of the three Alcohol & Drug Abuse Treatment Centers.

**ADMISSIONS:**

Admissions have decreased by **8.03%**, from **3,847** in fiscal year **2014** to **3,538** in fiscal year **2015**.

## **DISCHARGES:**

During fiscal year 2015, there were a total of **3,583** direct discharges, indirect discharges, deaths, Transfer-outs and program completions. **Thirty-eight percent (38%)** of total separations were program completions. There were no deaths reported during **FY15**.

## **PERSONS SERVED:**

The statistic “Persons Served” is calculated by summing the book population at the beginning of the fiscal year plus all admissions and readmissions during the year. There were a total of **3,698** persons served in state Alcohol & Drug Abuse Treatment Centers during fiscal year **2015**.

The number of “Persons Served” is the sum of the resident population and on leaves at the beginning of the fiscal year plus the number of admissions during the fiscal year. Table 2 show the number of persons served by the three ADATCs from each county in the state. Also shown for each county is the ratio of persons served per 100,000 county population. Table 2 shows the number of persons served by the three ADATC’s selected indicators. The “Persons Served” rate ranges from a high of **193** in Vance County to a low of **0** in Camden, Davidson and Tyrrell Counties, with an overall statewide rate of **37**.

The average length of stay in **FY15** was **14.30** days, a **1.79** days decrease from **16.09** days in **FY14**. The length of stay increased at JFK by **2.02** days from **17.93** in **FY14** to **15.91** in **FY15**. RJB’s length of stay decreased by **1.48** days. At WBJ, the length of stay decreased by **2.33** days.

**36.5%** percent of persons served at the ADATCs in **FY15** were women, a decrease from **37.3%** in **FY14**. The percentage of nonwhite persons served at ADATCs was **21.3%** in **FY15**, a decrease from **22.7%** in **FY14**.

For fiscal year **2015**, **44.1%** of the persons served reported alcohol as their primary drug of choice and **10.9%** reported cocaine. In **FY15**, cocaine, as a primary drug of choice, decreased by **1.6 %** and alcohol, as a primary drug of choice, increased by **2.2%** compared to **FY14**.
