Effective Social Work Practice in Adult Services

Greensboro, Wilmington, or Asheville

Description

This six-day training, offered in two 3-day sessions, is designed to assist DSS adult services social workers in understanding and integrating the concepts of *A Model for Excellence in Adult Services Administration and Social Work Practice* into their practice. This includes an emphasis on family-centered practice, empowerment of adults and their families, and the importance of cultural differences in work with adults and their families. Participants learn and practice basic skills in counseling, functional assessment, helping adults and their families set goals, emergency and crisis intervention, and service planning and monitoring. Participants also have the opportunity to use a set of tools for case record keeping to support and document their practice. Teaching methods include brief presentations, videotapes, role-plays, large and small group discussion, and extensive skills practice.

Objectives

At the conclusion of this training, participants will be able to:

1. describe the impact of the aging process on the whole person and the family;
2. understand the common threads of aging while appreciating the diversity of older people;
3. describe life course transitions and their impact on older people and their families;
4. understand the challenges older adults and their families face; and
5. respect and advocate for the older person's autonomy, dignity, and right to make choices.

Audience

Adult Services social workers and supervisors.
