Working with DSS Clients Who Have Serious Mental Illness

November 1–2, 2001, at Haywood Community College, Waynesville

or

March 18–19, 2002, at Wake County Human Services, Raleigh

Description

This two-day training is designed to enhance social workers' knowledge and skills in providing services to adults with serious mental illness. The curriculum familiarizes participants with symptoms and functional problems associated with severe and persistent mental illness; acquaints them with medications and side-effects; helps them understand the emotional impact of these illnesses on adults and their families; empowers them to access mental health services for adults; and helps them prevent or better manage difficult behaviors. The training addresses serious mental illness in general as well as the following specific disorders: Schizophrenia, Major Depressive Disorder, and Bipolar Disorders. Training methods include lecture, discussion, presentations by consumers of mental health services and family members, videotapes, and skills practice with case examples.

Audience

Adult services social workers and supervisors; mental health professionals. The involvement of professionals from both service systems helps promote cross-training and enhances collaboration.
