

# GUIDE TO COMPLETING THE CHILD WELFARE WORKFORCE DATA BOOK 2019

## **PURPOSE**

This Child Welfare Workforce Data Book was developed to collect data that is requested by a wide variety of sources including:

- the Administration for Children and Families,
- the General Assembly,
- researchers, and
- county child welfare agencies.

This data is used for information and planning at the local, state, and federal level. At the state level, this data provides:

- a picture of child welfare services provided in the state
- a means to assessment system needs
- a measure of where state resources should be invested
- a means to identify trends

Locally, this information can be used to provide:

- a monthly overview of child welfare activity in the agency,
- a means to identify strengths and needs in the provision of services
- assess potential issues in work flow before they become problems;
- a means to assure effective use of the child welfare workforce;
- a means to identify local trends in child welfare.

The Data Book can be adapted to facilitate the information gathering within an agency. Please contact Peter West ([peter.west@dhhs.nc.gov](mailto:peter.west@dhhs.nc.gov)) for further discussion on means to adapt the Data Books.

## **SUBMISSION OF DATA**

The Data Books are required to be submitted to the Division of Social Services quarterly by the last day of the month following the end of the quarter:

<b>Quarter</b>	<b>Date Due</b>
1 <sup>st</sup> : January – March	April 30, 2019
2 <sup>nd</sup> : April – June	July 30, 2019
3 <sup>rd</sup> : July – September	October 31, 2019
4 <sup>th</sup> : October – December	January 31, 2019

## **TIMELINESS**

Timely submission of the data is critical to make this information valuable. All the data is relational: it needs a context for appropriate interpretation. The context is the data from all 100 counties. Having the data submitted timely will enable the Division to share data to assist counties in interpreting and understanding individual county data in the context of the larger system.

**FULL TIME EQUIVALENTS (FTE's)**

Full Time Equivalents, or FTE's, are the units of measure that is used in this Report. FTE's are **not people** in child welfare positions, but the **positions** that are budgeted for child welfare. These are best observed on your agency's organizational chart as the boxes with the position titles in them.

An FTE can be divided among a number of functions in Child Welfare. In some instances, the FTE breakdown can best be derived by looking at the **time assigned** to tasks.

For example, the 5 FTE's in a unit that does CPS Assessments may cover CPS Intake and complete Assessments. Each Assessor may be assigned to cover Intake 1 day per week, and spends half that day actually doing Intake. The breakdown would look like this:

Total time for an FTE:	40 hours
Time doing CPS Intake:	4 hours or 10%
Time doing CPS Assessments:	36 hours or 90%

So, if you have a unit of 5 FTE's that do these tasks, record

for CPS Intake	.5 (or 10% of 5 FTE's)
for CPS Assessments	4.5 (or 90% of 5 FTE's)

In other instances, it may be easier to calculate the breakdown of a multi-function FTE by looking at the **workload size**. For example, an FTE that manages a blended Foster Care and Adoption caseload carries 10 children whose parental rights are intact and 5 whose parental rights are terminated and the plan is adoption. The breakdown would look like this:

Foster Care:	10 children/15 children standard = 67%
Adoption:	5 children/15 children standard = 33%

For this FTE, record

Foster Care	.67 FTE
Adoption:	.33 FTE

In agencies in which child welfare workers carry multiple types of cases, calculate the FTE's as close as possible to the percentages of the caseloads.

**FORMAT**

**The Data Book has 13 individual pages:** 1 for each of 12 months and a year-to-date (YTD) sheet. The tabs at the bottom of the screen enable access to each of the monthly pages.

**Do not make changes in the format of the Data Books.** When submitted, the county workbooks are entered into a larger workbook to derive statewide totals. Any changes in format will skew the results when inserted into the state workbook.

**All data entries are made on the 12 monthly sheets in the Data Book.** The YTD sheet is password protected and provides the sum of all the data entered on the monthly sheets and provides a longitudinal view of the year's data. **Be sure to enter your county's name in the upper left box that says, "County 2019".**

On the monthly sheets, **only the cells in which information is needed are unprotected.** The rest of the cells are protected to prevent accidental erasing of calculations.

If a county wants to **add additional data for local use**, please contact a Children’s Program Representative or Child Welfare Program Monitor to add local requirements to the workbook.

**INSTRUCTIONS FOR COMPLETING THE MONTHLY SHEETS**

The Monthly sheets provide the information which is imported onto the Year to Date, or YTD sheet.

A quick-guide for understanding the data required in each cell follows. Each cell is identified by the Column and Row as it is located on the Monthly Sheets.

Line 1 provides a listing of the common service groupings for which funding is tracked.
