

NC DEPARTMENT OF
**HEALTH AND
HUMAN SERVICES**

WE WANT YOUR INPUT TO IMPROVE CHILD WELFARE

We need your help. We want all children in North Carolina to get a healthy start and develop their full potential in safe and nurturing families, schools, and communities. We're working hard to support that goal by improving the state's child welfare system.

The NC Department of Health and Human Services (DHHS) Division of Social Services is requesting public input on how we can improve our services. While comments will be accepted on anything relevant to child welfare, DHHS is particularly interested in hearing ideas for:

- **Improving safety, permanency and well-being outcomes**
- **Services for high-risk populations** (i.e. children aged birth through 5, foster youth aged 18-21, LGBTQ population, runaway youth, pregnant foster youth)
- **Post-adoption services**

Your comments are vital to understanding what is working and what we can do differently. Please join us for one of these public input sessions. If you are unable to attend, you can also provide input via:

Email: CFSP.APSR@dhhs.nc.gov

U.S. Mail: NC Department of Health and Human Services,
Division of Social Services, Child and Family Services Review Coordinator, 2406 Mail Service Center,
Raleigh, NC 27699-2406
