Dear,

Due to a technical error, a small number of debtors for Food and Nutrition Services claims were intercepted too soon. Your Federal interception of \$ was among this group. Although your intercept occurred too soon, the claim was correctly established and is valid.

At this point, you have two options:

- Option 1: Ask for the interception to be refunded to you, or
- Option 2: Allow the interception to remain on your claim account.

Consequences of Option 1:

- The claim will be reopened and you will still owe us the money.
- If you receive Food and Nutrition Services, your benefits will be reduced to pay the claim.
- Your claim will be eligible for Federal interception, as well as interception of NC Income tax refunds and NC Education Lottery Winnings.

Consequences of Option 2:

- The claim will remain at its current balance.
- No additional collection action will be pursued.

After reading this letter, if you decide to choose Option 1, please answer all the questions below the dotted line. Remove that portion of this letter and mail it no later than June 1, 2011 to:

NC DHHS/DSS  
Attn: FNS Program Integrity
