**Table 2**

<b>Service (and 2-3 sentence description)</b>	Functional Family Therapy: short-term, strength-based, highly effective therapeutic model for working with high risk youth and their families.
	Eckerd Short-term Residential Services provide care for up to 6 months for 24 (Boomer site) and 36 (Candor site) adjudicated Level II males. Intensive, short-term services include individualized treatment and academic plans that combine formal and experiential education, vocational education, community service, behavioral health, and family counseling in a non-punitive environment designed to address the youth’s behavioral challenges through a strength-based approach. Youth also receive accredited education on-site and work together in small group settings with assigned counselors.
	WestCare North Carolina Girls Residential Program is a gender responsive residential program for girls ages 13-17. The average length of stay is 4-6 months. Services include individualized contracted treatment services through MCOs, education, social and emotional growth opportunities.
	Multi-purpose Group Homes provide a continuum of care for juvenile offenders with a copyrighted model of care (Values Based Therapeutic Environment). Services include therapeutic environment, child and family support, education, and transition planning.
	Transitional Living: Provide supported living environment with vocational, educational support within a model of care environment (Values Based Therapeutic Environment).
	Insight Youth Assessment and Crisis Center: Provides a comprehensive clinical assessment for Level II adjudicated youth including educational, Environmental/Social, Intelligence, Personality, and specialized assessment services (Trauma, Sexual Behavior, Pathology, Chemical Abuse/ Dependency)
<b>Key Terms (and definition)</b>	PRS- Post-release supervision
	Level II Disposition: Disposition services/programming as outlined in GS 7-B-2509 for adjudicated delinquent youth
