I. GENERAL INFORMATION

Objective:

To require facilities providing services to recipients of State/County Special Assistance for Adults to submit annual cost reports (where required, audited cost reports) of actual costs and to require the Department of Health and Human Services to adopt rules to ensure quality of care in these facilities.

Enabling legislation:

GS 131D-4.2 Senate Bill 744, section 12H.11

Implementation Date:

This legislation took effect with the cost report period beginning January 1, 1995 through September 30, 1995. The cost report is due on December 31st of each year. **The current report period is October 1st through September 30th for facilities licensed under Chapter 131D and July 1st through June 30th for facilities licensed under Chapter 122C. Combined nursing facilities reporting period should be based on the most recently completed Medicare cost report.**

Report Due Date:

All homes, except Family Care Homes, must complete the cost report for operations for the period of October 1st through September 30th or July 1st through June 30th. In accordance with GS 131D-4.2(e) House Bill 143, all reports must be submitted by **December 31, 2015** unless the home has filed an exemption notification.

If the cost report is required to be audited, the Auditor's Report that has been prepared in accordance with either SSAE No.10 or SAS No. 62 must be submitted along with the "audited" cost report by December 31, 2015. If an accountant has performed the agreed upon procedures, then a completed Independent Accountant's Certification Form should also be submitted by December 31, 2015.

Who must comply?

All homes that receive funds through the State/County Special Assistance for Adults Program must adhere to this reporting requirement, except Family Care Homes per Senate Bill 10. This includes all Adult Care Homes referred to in GS 131D and the 122C Mental Health Group Homes.

Exemption Notification:

All homes that are exempt because they did not receive any funds through the State/County Special Assistance for Adults Program **must** provide written notification by either faxing the exemption form to **(919) 715-3095** or by sending the form to the following mailing or street address:

Access to records:

The Department of Health and Human Services shall have the authority to conduct audits and review audits (GS 131D-4.1-4.3).

Action for Noncompliance:

The Department of Health and Human Services may take the following actions to enforce compliance by a home with the cost report requirements, or to punish noncompliance:

- 1) Suspend admissions to facilities that fail to submit annual reports by December 31. Suspension of admissions shall remain in effect until reports are submitted or licenses are suspended or revoked.
- 2) Seek a court order to enforce compliance
- 3) Suspend or revoke the home's license, subject to the provisions of Chapter 150B

If the Agreed Upon Procedures (AUP) indicates that the accountant was unable to perform certain procedures or utilized unapproved alternative procedures, the cost report and AUP will be returned for possible corrections. If corrections are not possible or timely, the cost report may be excluded from the rate setting figures. If the AUP indicate that the accountant was unable to verify total resident days or that the facility did not maintain documentation to support the allocation of personnel costs to cost centers, then the cost report data will be excluded from rate setting.

In addition, if any data on the cost report is subsequently revised and submitted to the Department after the AUP was received by the DHHS Office of the Controller, then an explanation for the revisions must be included with the cost report. If the revisions affect an expense item that was subjected to an AUP test, then a revised AUP must also be submitted along with the revised cost report.

Audit Requirements:

All homes with 21 or more beds, which receive State/County Special Assistance, must have their cost report audited in accordance with General Statute 131D-4.1-3.

- Homes with a licensed bed capacity of 21 and over are required to have their cost report audited every year.
- Homes with a licensed bed capacity of 7 to 20 beds are required to have their cost report audited once every two years. The 2014-2015 year **is** an audit year for this size home.
- **Homes with a licensed bed capacity of 6 or less are not required to have their cost report audited.**

If facilities meet the definition of a *cluster home* and home management files a consolidated cost report, the consolidated cost report should include all homes which have common ownership, located on the same site, and the same accounting system. The consolidated cost report will be audited in accordance with the audit requirements that have been established for an individual home with a licensed capacity of 12 beds or less.

The Department of Health and Human Services has developed procedures intended to be applied during an agreed upon procedures engagement in order to meet the requirements of General Statute 131D-4.1-3, while at the same time containing the cost incurred by the homes. A Certified Public Accountant (CPA) or an independent accountant may perform the agreed upon procedures. The procedures should be performed in accordance with Statement on Standards For Attestation Engagements (SSAE) No. 10: *Attestation Standards: Revision and Recodification*. A report prepared by a CPA in accordance with Statement on Auditing Standards (SAS) No. 62: *Special Reports* will also be accepted by the Department. The Department will **not** accept a SAS No. 62 Report from an independent accountant.

Before an independent accountant is engaged to perform the AUP, home management should have the accountant review the Independent Accountant's Certification Form to insure that the accountant meets the minimum requirements that have been established by the Department. If the accountant meets the minimum requirements, the Independent Accountant's Certification Form **must** be completed by the accountant and submitted along with the cost report.

COST REPORT

GENERAL INSTRUCTIONS

For Cost Reporting Year 2014-2015, the DHHS Office of the Controller (OOC) has available a means to electronically submit cost report information so it can be imported by the state into a master database. The hope is that this will be a beneficial process to both the facility and OOC to save time and effort with the Adult Care cost reporting process. It is highly encouraged to use this reporting mechanism.

Download the Web Version from the OOC web site at www.ncdhhs.gov/about/administrative-offices/office-controller/adult-care-facilities/2014-2015-cost-report-aups. Use this electronic Web Version to print blank copies of the cost report as well as to electronically submit the cost report and Agreed Upon Procedures (AUP) to our office.

If completing the cost report manually please enter on each page, in the boxes provided the Home License Number and Home Name as assigned by the Division of Health Service Regulations (DHSR).

This cost report may be prepared on a cash or accrual basis.

Web version will automatically populate cost center total lines.

Note: Box at upper right corner of the screen should be green. If it is, the cost report is in balance. If it is red, then the cost report is out of balance by amount shown. Check each entry on Schedule C1 and the entry on Schedule B line 19 for data entry errors.

IMPORTANT INFORMATION

- 1. Cost Reporting Year – For facilities licensed under Chapter 122C the reporting period will be July 1, 2014 through June 30, 2015. The reporting period for combined nursing facilities, only, should be off the most recently completed Medicare cost report. For all other facilities the reporting period will be October 1, 2014 through September 2015.**
- 2. Personal Care lines are not available – detail information on personal care costs such as salaries, benefits, taxes, travel, drug, beauty shop, etc. are not needed. All that needs to be entered is a lump sum total of these costs. The only line available to key numbers is Personal Care line 13. If related party adjustments need to be added to or subtracted out of this cost center (see #5 below) use this line (13) as the reference line and no hours need to be input.**
- 3. Multiple homes can be entered before exporting - multiple homes can be in process at the same time. To start another home, press the “New Record” button at the bottom of the screen. A blank record will appear with the cursor sitting in the “FID” box. This box is not for the Federal ID number. It is only used to number the homes if multiple homes are entered into the database. The numbering system can be as simple as 101, 102, 103, has a maximum length of 5 digits and no number can be duplicated. DO NOT use 1 in the “FID” box, as any other number between 2 and 99,999 will work. To switch back and forth between homes being entered, use the “Lookup Facility/FID” box to bring up the desired home. Only when the information for a home has been completed, print the final copy and export the home. Only completed homes should be exported. After creating an export file, the home exported has now become a single home file and can not be brought back to the multiple home database.**
- 4. Home for the Aged (HAL) facilities that are licensed for Special Care Unit Beds, a Schedule E has been added to the web version and must be completed before submitting.**
- 5. Schedule of Related Party Transactions (Schedule D) - If the organization lists a related party expense, unless the cost meets ALL 4 conditions listed under #7 on pages 29 and 30, the related party expense must be adjusted to the actual cost of the related organization. The amount to be adjusted should be put in the “Related Party Adjustments” column. If a negative amount is being adjusted out, a minus sign does need to be keyed. Three examples have been provided on page 29 on how this would work.**

17. The web version automatically calculates and displays the licensed bed days. If preparing the report manually, enter the total number of licensed bed days during the cost report period. Licensed bed days are computed by multiplying the number of licensed beds throughout the cost report period by the number of days in the period. If there is an increase or decrease in the number of licensed beds during the period, the number of licensed beds for each month of the cost report period should be multiplied by the number of days during the month.

Available bed days are computed by multiplying the number of beds available during a month by the number of days in the month. **Available beds may be different from licensed beds because a facility may choose not to fill beds up to their licensed capacity, or due to other factors such as temporary displacement due to construction, etc.** If there is an increase or decrease in the number of beds available during the period, the number of beds available for each month of the cost report period should be multiplied by the number of days during the month.

Example:

The cost report period is October 1, 2014 through September 30, 2015. Home is licensed for 10 beds. The home had 9 available beds on October 1, 2014 and 10 on January 1, 2015.

SCHEDULE OF EXPENSES

INSTRUCTIONS FOR SCHEDULE C1

IN AN EFFORT TO SIMPLIFY REPORTING FOR SMALLER HOMES, DHHS HAS CREATED AN ALTERNATIVE SCHEDULE OF EXPENSES (C1). SCHEDULE C1 IS TO BE COMPLETED BY HOMES WITH CAPACITY OF 6 BEDS OR LESS.

General Instructions:

The below listed Cost Report Line Numbers and descriptions correspond to the 2014-2015 Chart of Account items posted on the NC DHHS Office of the Controller's web site.

On each page of Schedule C1 (on the lines provided) enter the Home Name, Home License Number as assigned by the Division of Health Service Regulations (DHSR), and the cost report period for which report is being prepared.

All facilities were required to maintain monthly timesheets on all employees that worked in more than one cost center effective March 1, 1996. The facilities are required to utilize the timesheets to allocate the employee's personnel costs (salaries/wages, payroll taxes, and employee benefits) to the various cost centers.

It is suggested that the home prepare worksheets which summarizes the individual monthly timesheets for each employee to arrive at the overall percentages of time the employee devoted to the various cost centers for supporting documentation.

For column 1, only paid hours are to be used in determining the hours worked. The paid hours would include holidays, sick time, and overtime. The overtime hours should be the actual hours worked and not the overtime ratio (1-½ hours) used to calculate the pay.

COST REPORT

INSTRUCTIONS FOR SCHEDULE D

Nursing Homes are exempt from reporting the Related Party Transactions.

Definitions:

- A. **“Related to the home,”** means that the home to a significant extent is associated or affiliated with, or has control of, or is controlled by, the organization and/or individual furnishing the services, facilities, or supplies.
- B. **“Common ownership”** exists when an individual or individuals possess significant ownership or equity in the home and the institution or organization serving the home.
- C. **“Control”** exists where an individual or an organization has the power, directly or indirectly, significantly to influence or direct the actions or policies of an organization or institution. The term "control" includes any kind of control, whether or not it is legally enforceable and however it is exercisable or exercised. It is the reality of the control that is decisive, not its form or the mode of its exercise.
- D. **“Necessary services”** are those services needed for the efficient operation and sound management of the facility such that had the owners or owner-related individual not rendered the services, the facility would have had to employ another person to perform the services.
- E. **“Ownership interest”** means the entitlement to a legal or equitable interest in any property of the facility whether such interest is in the form of capital, stock, or profits of the facility.
- F. **“Owner”** – An owner shall be considered any individual with a 5% or more ownership interest in the facility.
- G. **“Owner-Related Individual”** – An owner-related individual shall be considered an individual who is a member of an owner’s immediate family which includes spouse, natural or adoptive parent, natural or adopted child, stepparent, stepchild, sibling or stepsibling, in-laws, grandparents and grandchildren.
- H. **“Compensation”** means the total benefits received by the owner for the services he renders to the institution. Such compensation shall include:
 - (1) Salary amounts paid for managerial, administration, professional, and other services
 - (2) Amounts paid by the institution for the personal benefits of the proprietor
 - (3) The costs of assets and services which the proprietor receives from the institution
 - (4) Deferred compensation
 - (5) Compensation reported for tax purposes

In determining whether a home is related to a supplying organization and/or individual, the tests of common ownership and control are to be applied separately. If the elements of common ownership or control are not present in both organizations, the organizations are deemed not to be related to each other.

The existence of an immediate family relationship will create an irrefutable presumption of relatedness through control or attribution of ownership or equity interests. The following persons are considered immediate family for adult care program purposes:

- (1) Husband and wife
- (2) Natural parent, child and sibling
- (3) Adopted child and adoptive parent
- (4) Step-parent, step-child, step-sister, and step-brother
- (5) Father-in-law, mother-in-law, sister-in-law, brother-in-law, son-in-law, and daughter-in-law
- (6) Grandparent and grandchild

Some examples of common types of transactions between related parties are:

- (a) Sales
- (b) Purchases
- (c) Transfers of realty and personal property
- (d) Services received or furnished, for example:
 - Accounting
 - Management
 - Engineering
 - Legal services
- (e) Use of property and equipment by lease or otherwise
- (f) Borrowing and lending
- (g) Guarantees
- (h) Maintenance of bank balances as compensating balances for the benefit of another

General Instructions – Schedule D:

For each type of related party cost/expense, please complete the following fields:

- (1) Description of the expense/cost line item
- (2) Identification of the line item number and the cost center that the expense/cost was reported under
- (3) Name of the related party (organization and/or individual);
- (4) Description of the relationship between the related party and the home
 - Examples are:**
 - Parent company
 - Subsidiary
 - Subsidiary of a common parent company
 - Principal owner
 - Immediate family of principal owners
 - Management
 - Immediate family of management
 - Affiliate (a party that, directly or indirectly through one or more intermediaries, controls, is controlled by, or is under common control with the home)
 - Different divisions within the same company
- (5) Total amount of the related party transaction/expense
- (6) Total number of paid hours, if applicable, that corresponds to the expense (salaries and wages, casual labor and contract services) being reported.

(7) The unallowable related party expense that reduces the total expense for the cost center identified.

- If there are any costs included in Schedule C which result from transactions with related organization as defined in CMS 15-1 (Provider Reimbursement Manual), Chapter 10, they must be identified on Schedule D. Unless the cost meets all four of the exceptions below, the related party expense must be adjusted to reflect a value that would have been paid to an unrelated organization in the open market, as represented by management of the provider organization. For illustrative purposes, three examples are listed below:

Example #1 – Acme Medical Supply shares common ownership with ABC Assisted Living and is deemed a related party. Acme sold \$18,000 of medical supplies to ABC Assisted Living. The actual cost of the supplies was \$13,000. The \$13,000 is the allowable amount because that is what the supplies actually cost; the different between the \$18,000 and \$13,000 has to be adjusted off. Schedule D would look like this:

Line Item	Related Party Name	Relationship	Expense Amount	Pd Hrs	Line Item Description	Cost Center	Adj Amount
68	ACME Medical	Affiliate	18,000	0	Medical Supplies	Health Services	-5,000

The minus sign does have to be keyed in the Related Party Adjustment column.

Example #2 – Central office overhead expenses are allocated to XYZ Assisted Living from the corporate home office (Eureka Homes). The amount determined to be allocated is \$25,000. To add this \$25,000 to XYZ Assisted Living’s cost report, first there has to be at least a dollar on the 101 line item on Schedule C and then Schedule D would look like this:

Line Item	Related Party Name	Relationship	Expense Amount	Pd Hrs	Line Item Description	Cost Center	Adj Amount
101	Eureka Homes	Affiliate	1	0	Central Office	Admin/General	24,999

Example #3 – Rent payments of \$50,000 for the facility are made to EFG, LLC, a related party. The related part lease expense of \$50,000 is removed so the actual ownership costs of the facility can be added. Next the related party ownership costs that include allowable depreciation (\$40,000), mortgage interest (\$3,000) and property insurance (\$2,000) are added. Again, there has to be at least a dollar on line 172, 179 and 181.

Line Item	Related Party Name	Relationship	Expense Amount	Pd Hrs	Line Item Description	Cost Center	Adj Amount
175	EFG, LLC	Family Member	50,000	0	Rent for Facility	Property/Owner	-50,000
172	John Doe	Family Member	1	0	Depreciation	Property/Owner	39,999
179	John Doe	Family Member	1	0	Interest	Property/Owner	2,999
181	John Doe	Family Member	1	0	Insurance	Property/Owner	1,999

- Related party transactions meeting **ALL** 4 of the following conditions are deemed non-related by exception.
 - a. The related party organization is a bona fide separate organization. This means that the related party organization is a separate proprietorship, partnership, joint venture, association or corporation and not merely an operating division of the provider organization.
 - b. A substantial part of the related party organization’s business activity is transacted with other providers not related to the provider in an open, competitive market providing the same type of services, facilities or supplies.

- c. The services, facilities or supplies can be commonly obtained from outside sources rather than producing the item internally.
- d. The charge to the provider is in line with the charges of such services, facilities or supplies in the open market and no more than the charge made under comparable circumstances to others by the related party for such services, facilities or supplies

Compensation to Owners and Owner Related Individuals:

Allowability of Compensation and Recordkeeping Requirements:

Owners of provider organizations often render services as managers, administrators, or in other capacities. In such cases, it is equitable that reasonable compensation for the necessary services rendered be an allowable cost. To do otherwise would disadvantage such owners in comparison with corporate providers or providers employing non-owners in comparison with corporate providers or providers employing non-owner persons to perform the same services.

Distribution of profits is a form of compensation paid to a proprietor. However, this form of compensation is **not an allowable cost** of the facility because it is not contingent on performance of necessary services. Where a proprietor renders necessary services for the institution, the institution is, in effect, employing his services and a reasonable compensation for these services is an allowable cost. The salaries of owners and owner-related employees are subject to the requirements of reasonableness. Reasonableness of compensation will be determined by reference to or in comparison with compensation paid for comparable services and responsibilities in comparable institution or it may be determined by other appropriate means. Where the services are rendered on less than a full-time basis, the allowable compensation should reflect an amount proportionate to a full-time basis.

Compensation for services of owners and owner-related employees shall be allowable cost provided these services are adequately documented to be necessary, and such employees are adequately documented to be qualified to provide these services. Adequate documentation shall include but not limited to:

- (1) Date and time of services contemporaneous recordkeeping
- (2) Position description
- (3) Individual's educational qualifications, professional title, and work experience
- (4) Type and extent of ownership interest
- (5) Relationship to and name of owner (if an owner-related individual)
