The Centers for Medicare and Medicaid Services (CMS) published regulations for Home and Community Based Services (HCBS) which became effective on March 17, 2014. All states must meet new requirements for individuals who receive services under a home and community-based waiver.

Due to feedback received the public comment period is being extended until July 22, 2022.

CMS required all states to develop a Transition Plan for each waiver program affected by this rule. The plan set out how the state assess current settings, and included strategies, and timelines for meeting the requirements of the new rules. The Initial Transition Plan was developed and approved in 2017. The State must be fully compliant with CMS HCBS Final Settings Rule by March 17, 2023. The Transition Plan has been amended for submission to CMS for final approval. The amended plan includes results from the States Provider Assessment Outcomes, Validation strategies, and the States plan to ensure HCBS compliance through Ongoing Monitoring.

The North Carolina Department of Health and Human Services (DHHS) would like your comments on this *draft* HCBS Final Transition Plan before it is finalized and submitted to CMS. Links to the plan are available below.

## ***Draft* HCBS Final Transition Plan Document**
