

WHY SHOULD I REGISTER FOR AN ACCOUNT?

You already have so many usernames and passwords in your head, why do you need one more?

With an account on the Participant Portal, you can have the power of your account on your phone. It even works as a form of payment in farmers markets when redeeming FMNP benefits.

You also have complete control of your identity in your hands — you can change your name, contact number, and email any time, no need to go to a clinic.

KNOW THE POWER IN YOUR HANDS

From that first touch of your baby's skin against your own, you knew you wanted the best for them. WIC helps do just that, by providing the nutrition they need to grow up healthy and strong.

PARTICIPANT PORTAL

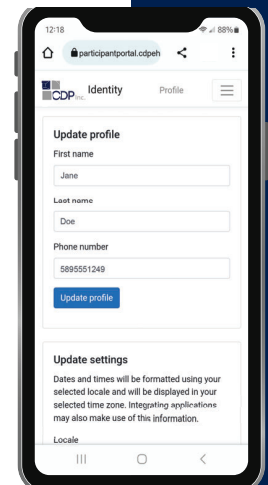

View your basic account contact information like name, phone number, and email address.

Your WIC identification information is also displayed as a QR barcode for vendors who accept it.

PROFILE

You can always make changes to your profile including:

- Update name and phone number
- Update locale settings
- Change your username
- Change the email used for the account

We know life is busy, especially with a little one in the house. So we created the Participant Portal to make your life a little easier, giving you more time to focus on your life. Using the portal allows you to access your mobile identity, for the Farmers Market Nutrition Program (FMNP). Farmers at the Farmers Market who accept FMNP benefits can easily scan your QR code directly from the Participant Portal.

SECURITY

You can always make changes to your security settings including:

- Change your password
- View login activity
- Control external logins
- Enable/disable two-factor authentication
