Adolescent Parenting Program

Average caseload: 15-25 per home visitor

Eligibility

- Pregnant or parenting adolescents (13-19)
- Enrolled in school or GED completion program
- All Adolescent Parenting Programs (AP2) use PAT curriculum for home visiting. Many programs are PAT Affiliates the rest are program subscribers.

Attachment Biobehavioral Catch-Up

Average caseload: Varies according to program funding and community needs; a full caseload would be 10-12 families seen weekly

Eligibility

- Children ages 6-24 months (for ABC-Infant model) or 24-48 months (for ABC-Toddler model) and their caregivers are eligible for the model.
- Although any child in these age ranges is eligible, ABC's research evidence is particularly strong for children who have experienced early relationship adversity, such as early separation (e.g., hospitalization, living with an alternate caregiver such as a grandparent or foster parent), domestic violence, or parental mental health and/or substance abuse problems.

Baby Love Plus

Average caseload: 20-22 families per team

Eligibility

- Women of childbearing age who were enrolled or eligible for enrollment in the Pregnancy Care Management Program.
- Women and children are enrolled up to 6 months postpartum and receive services until the child is two years of age.

BookBabies

Average caseload: 100 families per FT Book Babies Coach

Eligibility

- Babies are enrolled prenatally up until 16 weeks of age
- Babies need to be Medicaid eligible
- Families need to reside within county limits

Child First

Average caseload: 8-16 families per team

Eligibility

- Child is under 6 years of age at the time of referral to Child First
- Child has active NC Medicaid
- Child has developmental, behavioral, emotional concerns or has been exposed to trauma

Early Head Start Home Visiting

Average caseload: 10-12 families per team

Eligibility

- Pregnant women and children from birth to age three who are from families with incomes below the poverty guidelines are eligible for Early Head Start services
- Children from homeless families, and families receiving public assistance such as TANF or SSI are also eligible. Foster children are eligible regardless of their foster family's income.

Family Connects (includes ICO4MCH)

Average caseload: Population Level

Eligibility

Available for all births

Healthy Beginnings

Average caseload: 40

Eligibility

- Minority women and their children from birth to age two
- No more than 20% can be enrolled during the 60-day postpartum period

Healthy Families America (includes MIECHV)

Average caseload: 12- 30 families, depending on service level

Eligibility

- Eligibility occurs either prenatally or within the first two weeks after the birth of the baby

Healthy Families America (continued)

- Parents determined at risk using a systematic screening tool or Parent Survey Assessment
- Some HFA sites offer Universal Home Visiting services where all families are considered eligible regardless of risk factors

HIPPY

Average caseload: Population Level

Eligibility

- 2-5 years of age

Nurse-Family Partnership (includes MIECHV)

Average caseload: At least 25 first-time mothers per Nurse Home Visitor

Eligibility

- First-time mothers enrolled before 28 weeks gestation
- Family must meet low-income criteria
- Families enrolled until the child turns 2
- High Risk (teen pregnancy, unemployment, maternal health risks, poverty, unstable housing, limited support, etc.)

Parents as Teachers (includes AP2)

Average caseload: 18 - 30 families based on the frequency of visits

Eligibility

- PAT is designed to be used in any community
- Enrollment beginning prenatally and continues until the child enters school.
- Some affiliates target specific populations or families with >1 high need characteristic

ParentChild+

Average caseload: 12-14 per specialist

Eligibility

- children ages 16 to 48 months

SafeCare

Average caseload: maximum range 12-15 families

Eligibility

- birth to 5
