

# Mpox Vaccine Social Media Toolkit – Twitter, Facebook and Instagram Posts

Simply click on the associated image link then right-click to download the images in the left column. The sample text in the right column can be used to accompany these images for Twitter, Facebook, and Instagram posts.

As a reminder, URLs/hyperlinks do not work when used with Instagram posts. If you would like to direct Instagram users to a hyperlinked webpage, you can do so in a story post by using the “link” button.
