

North Carolina Community Health Grants

2023 Profile (Data from State Fiscal Year 2023 and current as of 6/30/2023)

Grant Facts

\$15.2M

Grant funding appropriated from the General Assembly

120

Health care professional jobs supported through grant funds

292,602

Total Patients served

1,145,202

Medically vulnerable patient encounters for Medicaid, Medicare, underinsured, and uninsured

\$46.57

Average annual contribution by ORH per patient

Performance Measures

69%

Patients with well-controlled diabetes, as evidenced by A1c levels < 9

65%

Patients with well-controlled hypertension, as evidenced by blood pressure levels < 140/90

58%

Patients screened for obesity through Body Mass Index (BMI) testing

72%

Patients screened for tobacco cessation and treatment

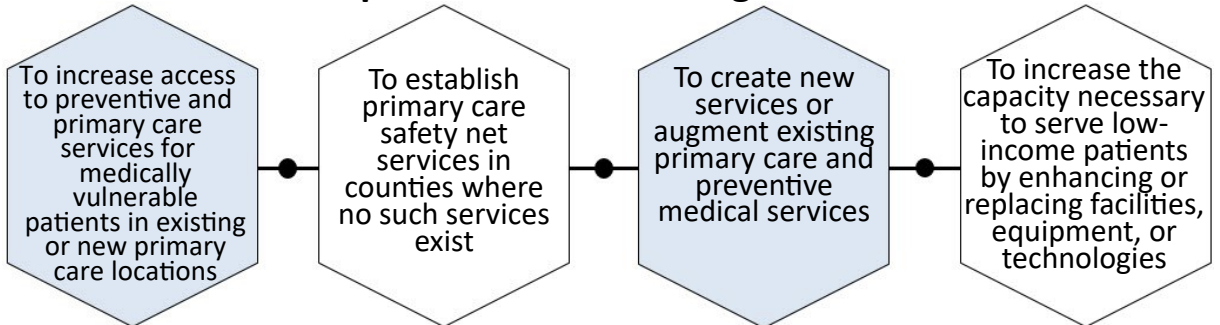

Did You Know? That nearly 973,000 North Carolinians were considered uninsured in 2022 (American Community Survey, US Census Bureau).

Since 2004, the Community Health Grant (CHG) funds, supported through the North Carolina General Assembly, are for assuring access to preventive and primary care to meet the health needs of our state's most vulnerable populations. Strengthening the safety net through increased levels of collaboration and integration of services and organizations to more effectively sustain and meet the needs of those served is also an important purpose of this grant.

Importance and Improvements

Continued support and recurring funding for the CHG program have strengthened North Carolina's health care safety net infrastructure by funding projects ranging from funding for health care providers, community health workers, telehealth equipment, electronic health record software and dental equipment. Support for the program led to increases in performance measures such as tobacco cessation and treatment, body mass index screening and patients with well controlled hypertension.

Purpose of Grant Funding is Fourfold:

Return On Investment and Economic Impact

Source: IMPLAN

Table with 3 columns: CHG Expenditures (\$13,625,339), Created Economic Impact (\$1,048,585), Total Impact (\$28,749,452). Includes icons for jobs generated (204), taxes generated (\$12,733,062), and employee compensation impacted.

Each CHG grant dollar has a total economic impact of

\$2.11

*Economic impact is estimated to be much greater because improved health outcomes can lead to fewer missed work days, reduced health care costs, and reduced premature morbidity and mortality. Some expenses such as out of state purchases, overhead, and rollover payments are not captured for ROI and economic impact.
