

The North Carolina HIV Training & Education Center (NCHTEC) is offering a series of trainings for providers who work with the LGBTQ+ community. This Sexual Health series is open to all, but focused on medical providers in particular, and covers a range of topics including cultural sensitivity, taking a sexual health history, mpox, STIs, and serving this population using a non-judgmental and supportive framework.

Continuing Education Credits (CEUs) are available. Links to registration will be updated as they are created. You may also [sign up here](#) to receive these and other training updates.
