Appointment History Report

This report lists appointment outcome information for a selected time frame and calculates a show rate if the dates are in the past.

1. From the Home screen, go to Scheduling > Reporting > Generate Reports.
2. Select Appointment History Report.
3. A new browser window opens accessing the report server.
4. Select
 - a. date(s) to cover the desired time period,
 - b. local agency or clinic report type, and
 - c. local agency or clinic(s)
5. Click View Report.

6. The report displays. Number of pages is displayed. The report is searchable.

7. To print the report, click the Adobe pdf icon.

8. A new window will open with the pdf document.

9. Print the document if desired.

Note: The bottom of the report contains summary information, including a show rate.

Note: Show rate equals the number of attended appointments minus walk-ins, divided by the number of booked appointments. Walk-in information needed to determine the show rate calculation is not available on this report, although it is included in the calculation resulting in the show rate percentage appearing on this report. Rescheduled and cancelled appointments are removed from the equation.

Detail Initial Certification Appointments Made Outside of Processing Standards

This report lists appointments that were scheduled outside of processing standards for a selected time frame in the selected local agency or clinic. Results can be sorted in multiple ways. Information is useful in determining if the local agency is experiencing difficulty meeting processing standards and can help decide whether changes in scheduling are needed to meet requirements. This is a companion report to the Pending List.

1. From the Home screen, go to Scheduling > Reporting > Generate Reports.
2. Select Detail Initial Certification Appointments Made Outside of Processing Standards.
3. A new browser window opens accessing the report server.
4. Select
 - a. date(s) to cover the desired time period
 - b. local agency or clinic report type
 - c. local agency or clinic(s)
 - d. sort order for data on report
5. Click View Report.

Note: In the example provided, the report type selected is local agency. Therefore the user is not able to filter by clinic when selecting local agency/clinic.

Note: The number of days past processing standards for each appointment displays in the column with that name.

Note: When an applicant is added to the pending list, the user selects a reason for scheduling the appointment outside of processing standards. That reason displays on this report in the Outside of Processing Standards Comment column. If the column is blank, the user scheduling the appointment selected no when prompted to add the individual to the Pending List. Users should always select Yes when prompted to add a participant to the Pending List.

Participant Appointment Show Rate Report

This report provides information about appointments that were scheduled and kept or missed during a specified time period. It can be narrowed to provide results based on time of day. The number of walk-ins served during the selected time frame is also provided, and a show rate is calculated for the total appointments as well as each appointment type.

1. From the Home screen, go to Scheduling > Reporting > Generate Reports.
2. Select Participant Appointment Show Rate Report.
3. A new browser window opens accessing the report server.
4. Select
 - a. date(s) to cover the desired time period
 - b. hours to covered the desired time frame
 - c. local agency or clinic report type
 - d. local agency or clinic(s)

Note: If the user is interested in show rate for a certain time of day, the report can be limited to that specific time of day and be compared to reports for other times of day.

5. Click View Report.
