

**Walter B. Jones Center Opioid Treatment Program (OTP)** - provides inpatient treatment for adults struggling with opioid addiction from the Eastern region of North Carolina through Medication Assisted Treatment (MAT) using evidenced-based practices including, but not limited to, Methadone, Suboxone, and Naltrexone.

Adults seeking services are:

- (1) Referred from outpatient community-based treatment programs for initiation of MAT services or stabilization of outpatient services; or
- (2) Referred from community hospitals for crisis stabilization and initiation of MAT services.

The Walter B. Jones Woodside Treatment Center OTP is accredited by the Joint Commission and SAMHSA CSAT as an Opioid Treatment Program.
