Opioid Treatment Program (OTP)
Inpatient Treatment Services

WALTER B. JONES Opioid Treatment Center

Clinical Services

- Adult Inpatient Opioid Treatment Program
- Medical
- Nursing
- Counseling
- Recreational Therapy
- Discharge Planning

Adults seeking services are referred from:

- Outpatient community-based treatment programs for initiation of MAT services or stabilization of outpatient services.
- Community hospitals for crisis stabilization and initiation of MAT services.

Referral Process

- Referrals are generally made through a community provider.
- Adults seeking care and treatment may walk in to be assessed for appropriate admission.
- Adults referred for services or who may walk in for an assessment are provided with a referral to an appropriate level of care if not admitted.

Certified by

WALTER B. JONES Opioid Treatment Center

The program provides inpatient treatment for adults, in Eastern North Carolina, who are struggling with opioid addiction. Patients are provided with Medication Assisted Treatment (MAT) using evidenced-based practices including Methadone, Suboxone, and Naltrexone.

Perinatal services are also provided for women needing inpatient substance use and/or mental health treatment from all 100 NC counties. Women are accepted in all stages of their pregnancies.
